## Personal Statement

Detail-oriented Data Analyst with hands-on experience in data cleaning, visualization, predictive modeling, and dashboard creation using Python, SQL, Power BI, Tableau, and Excel. Completed multiple industry-focused internships, delivering actionable insights across retail, manufacturing, healthcare, and SaaS domains. Known for analytical problem-solving, adaptability, and effective communication, with a strong foundation in both data analytics and UX research.

## Key Skills

Data Cleaning & Preprocessing

Data Visualization (Power BI, Tableau, Excel, Matplotlib, Seaborn)

SQL (MySQL, MS SQL Server)

Python (Pandas, Numpy, Scikit-learn)

Dashboard Design & Reporting

Customer Segmentation & Market Analysis

Predictive Analytics & Statistical Modeling

Business Intelligence & Storytelling

## Work Experience

### **Data Analytics Intern | Elevvo Pathways** **Remote | September 2025**

Completed a 1-month structured internship focused on applied data analytics.

Worked on real-world datasets covering customer segmentation, time-series forecasting, and dashboard design.

Applied Python (Pandas, Matplotlib, Seaborn), SQL, Power BI, and Tableau to clean, analyze, and visualize data.

Documented analysis workflows and shared insights through GitHub repositories.

Strengthened teamwork and project documentation skills while meeting deadlines.

### **Platform Experience Researcher Intern | insite.life** **London | March 2025 – June 2025**

Conducted usability testing and synthesized user feedback to improve platform UX.

Collaborated in agile sprints, producing structured reports to guide product strategy.

Developed strong research and analytical skills by gathering user insights and providing actionable feedback.

Enhanced teamwork by collaborating with peers on research initiatives and sharing findings.

### **Data Analytics Intern | Visa Bridge** **Remote | June 2025 (25 days)**

Performed customer segmentation and market basket analysis for a retail chain.

Built a predictive maintenance model for manufacturing equipment to minimize downtime.

Designed a Power BI sales dashboard for a SaaS company.

Conducted statistical analysis of employee satisfaction to identify retention drivers.

Compiled a healthcare utilization BI report with actionable recommendations.

## Education

Coursera – Data Analytics

Government College Ghaziabad – Intermediate

## Certifications

Google Data Analytics Professional Certificate (Coursera)

Career Essentials in Data Analysis (LinkedIn & Microsoft)

Data Analytics Bootcamp Certified (FreeCodeCamp)

Practical GitHub Project Management and Collaboration

## Projects

Basel Governance & AML Risk Analysis | Power BI, SQL, Python

Cyclistic Bike Share Analysis | SQL Server

Sales Dashboard Project | Excel, Power BI

Python Pandas Visualization Project | Jupyter Notebook
